22th February 2017

Confirmation for European Community Directive 1907/2006/EC (REACH)

Dear Customer,

You are purchasing exclusively electrical or electromechanical, non-chemical products from Belden Deutschland GmbH. With these products we are, in terms of REACH (1907/2006/EC), a so-called "downstream" user. We are therefore neither subject to mandatory registration, nor obliged to compile safety data sheets. Products purchased by you ought not to release substances under normal intended use.

Our products do not contain residual hazardous substances originating from our production process. In consideration of the mandatory candidate list (12th January 2017) with 173 substances and the information from our suppliers we can exclude the existing of a SVHC (Substances of Very High Concern) in a concentration above 0.1 % weight by weight in our articles. If this should be the case in the future, we will naturally provide information, in accordance with our obligations according to §33 of the REACH regulations, about the existence of the substances concerned.

Best regards

Belden Deutschland GmbH
